THE FILIPINOS ATTACK

American Line, and a Heavy Fusillade Ensucs.

BATTLE FULLY DESCRIBED.

Admiral Dewey Sends the First Official Information.

OUR FORCES ARE SUCCESSFUL.

The Losses In the Ranks of the Unite States Troops Are Estimated at Twenty Men Killed and Over One Hund:ed Wounded.

Manilia, Feb. 6.-The Filipinos attacked the American line from Caivocan to Santa Mera at 8:45 p. m. There was heavy fusillade firing on both sides. The United States cruiser Charleston and the gunboat Concord bombarded the enemy. The Americans, after magnificent charges, captured several of the enemy's positions. The Americans lost 20 killed and had 125 wounded. The Filipinos iost heavily.

Dewey Account of It. Washington, Feb. 6.-The following message was received from Admiral Dewey at Manilla: "Insurgents here inaugurated a general engagement Saturday night, which was continued Sunday. The American army and navy is generally successful. Insurgents have been driven - back and our line advanced. No casualties to navy.

First News From Army. Washington, Feb. 6.—The following telegram just received by Chief Signal Officer Greeley is the first news received from the army at Manifia: "Action continues since early morning, losses quite heavy; everything favorahie to our arms. Thompson." Coionei Thompson is the chief signal cfficer on the staff of General Otis.

IN DEADLY CONFLICT. Open Rupture Between Americans and Filipinos at Manilla.

Manilla, Feb. 6.—The long-expected rupture between the 'Americans and

the Filipinos has come at last. The former are now engaged in solving the Philippine problem with the utmost expedition possible. The clash came at 8:40 p.m. Saturday, when three daring Filipinos darted past the Nebraska regiment's pickets at Santa Mesa, but retired when chailenged. They repeated the experiment without drawing the sentry's fire. But' the third time Corporal Greeley challenged the Filipinos and then fired, killing one of them and wounding another.

Aimost immediately afterward the Filipinos' line from Caivocan to Santa Mesa commenced a fusillade, which was ineffectual.

The Nebraska, Montana and North akota outposts repiled vigorously and held their ground until reinforcements arrived. The Filipinos in the meantime concentrated at three points-Caivocan, Gagalangin and Santa Mesa.

At about 1'a: m. the Filipinos opened a hot fire from all three places simultaneously. This was supplemented by the fire of two siege guns at Balik-Balik and by advancing their skirmishers at Paco and Pandacan.

The Americans responded with a terrific fire, but owing to the darkness they were unable to determine its effect. The Utah light artillery finally succeeded in silencing the native battery. The Third artillery also did good work on the extreme left. The engagement lasted over an hour.

The United States cruiser Charleston and the gunboat Concord, stationed off Malahona, opened fire from their secordary batteries on the Filipinos at Calvocan and kept it up vigorously.

At 2:45 there was another fusillade aiong the entire line and the United States seagoning double monitor Monadnock opened fire on the enemy from

With daylight the Americans advanced. The California and Washington regiments made a splendid charge and drove the Filipinos from the viilages of Paco and Santa Mesa. The Nebraska regiment also distinguished itself, capturing several prisoners and one Howitzer and a very strong position at the reservoir, which is connected with the water works.

The Kansas and Dakota' regiments compelled the enemy's right flank to retire to Calvocan. There was intermittent firing at various points all day long. The losses of the Filipinos cannot be estimated at present, but they are known to be considerable.

The American losses are estimated at 20 men killed and 125 wounded.

The Ygorates, armed with bows and arrows, made a very determined stand in the face of a hot artillery fire and left many men dead on the field. Sevattempts were made in this city ...sassinate American officers.

Not Surprised.

London, Feb. 6.-A press representative saw the London representative of Aguinaldo. He did not express surprise at the news frem the Philippine islands, but declared that the Filipinos at Maniiia were suspicions of the attitude of the United States and had formed the opinion that it was better to fight before the Americans were re-.nforced. The representative added that Mabini, the head of the Filipino cabinet, and his coileagues, were convinced that if the Americans were beaten now public opinion in the United States would "insist upon the maintenance of Filipino independ-

Dr. Lunn's Version.

Washington, Feb. 6.-Aguinaldo's representative, Dr. Luna, a member of the Filipino junta here, in an interview, discredited the statement emanating from Aguinaldo's London representative. He said he had received a cablegram from Aguinaido Saturday stating that he was awaiting the action of the United States senate on the treaty of peace and that the Filipinos would make no move unil action had been taken. This message, he said, was dated at Malolos, the capital of the so-called Filipino republic.

No News at Madrid. Madrid, Feb. 6.-The Spanish government has no news of the conflict at Manifia and it is added that the government of Spain will "act in the most correct manner and scrupulously respect the treaty of Paris."

COLONEL SEXTON'S DEATH. The Grand Army Commander Passes

Away at Washington. Washington, Feb. 6.-Colonel James A. Sexton, commander-in-chief of the Grand Army of the Republic and a member of the war investigating commission, died at 3:40 a. m. at Garfield hospital, from complications resulting primarily from an attack of the grip.

Colonel Sexton had bon ill about a month, with grip and kidney troubles and later with meningetis of the brain. His system failed to respond to medicai treatment and for several weeks his recovery was hardly expected.

She Will Be Electrocated. Sing Sing, N. Y., Feb. 6. - Warden Sage notified Mrs. Martha Place, the Brooklyn murderess, that the court of appeals had refused to grant her a new trial, and that she would have to meet death in the electric chair during the week, beginning March 20. When Mrs. Piace heard the news she cried bitterly. She will hog her lawyers to urge the governor to exercise executive ciemency. If her sentence is not commuted, she will be the first woman in this state to die in the electric chair, and the first woman since 1887 to pay

the penalty of death. Scramble For an Office.

Washington, Feb. 6.-A lively contest is on for the fourth assistant commissionership of the general land office, which Frank W. Mondell of Wyoming, who has been elected to eongress, wili vacate on March 4. Mr. Mondeil will present his resignation very soon, and several candidates are in the field. Ex-Governor Richards of Wyoming, who has the advantage of geographical location and of familiarity with land office work through some years' experience as surveyor general of the state, has been urged on the president and is strongly backed.

Ex-Minister Barrett's Views. Hongkong, Feb. 6. - John Barrett, the former United States minister to Stam, who is returning to the United States, delivered an address here regarding the Philippines. Mr. Barrett urged the nacessity of the United States forming a semi-independent protectorate until the ability of the Filipinos to stand aione is demonstrated, the United States reserving a strategic naval base, like Suhig hay, giving her control of the situation, and thus strengthening her throughout the far

Had a Right to Cut the Cable.

Washington, Feb. 6 .- Attorney General Griggs in a decision upholds the right of a military commander to eut a cable within the territorial waters of an enemy without making his country liable in damages. The question arose on the cutting hy Admiral Dewey at Manijia of the cable of the British Eastern Extension Australasia and China Telegraph company, who filed a elaim with the state department for \$36,000 damages.

SWEET PEACE NO MORE

Is Fondly Hugged by Officials at Washington.

DOGS OF WAR LET LOUSE.

How News of Battle Is Received by the Administration.

HOPED IT WOULD BE OTHERWISE

While There Is the Utmost Confidence In General Otis and Admiral Dewey to Maintain American Position, Hostilities A e Regarded Unfortunate.

Washington, Feb. 6.-Admiral Dewey cabled the navy department that hostilities had begun between the American army and naval forces and the Philippine insurgents in and about Manilla.

The insurgents, he said, had been the aggressors and had been repuised. The news came like a shock, for the administration, though apprised that an ugly situation prevailed in the Philippines, had clung steadily to a hope that by tact and patience actual fighting might be averted, and even those public men who felt that hostilites would follow should the treaty be ratified and the United States attempt to occupy the islands, believed that Aguinaldo would not force the fighting when the treaty of peace was in its most critical stage. Some senatorial opponents of ratification of the treaty adhere to their position, but the general opinion in Washington is that the news from Manilia insures the ratification of the treaty at 3 p. m.

DEWEY IS FIRST. The news of the beginning of another war came from Admiral Dewey, It seems to he Dewey's fortune always to be able to report favorable news, and like all of his messages that have gene before this cabiegram, told of the success of the American forces in action. It was with great regret, however, that the administration learned that the insurgents had forced the issue. It had hoped ail along that they could he brought to see the advantages of piaeing their trust in the Amerlcan people, and relying upon the president to deal justly with them. The administration argued that with the Philipipne commission fairly on the sea en route for Manilia, bringing with them messages from the president, and with the peace treaty still unacted on, it was not to he eredited that they would refuse to wait to learn the purposes of the American government. hut would precipitate the long impending conflict.

While this was true, the officials here and the officers in Manifia had not been blind to the threat contained in the situation there, and every preparation has been made for just what occurred. It is now acknowledged that fear of an outbreak in Luzon was the explanation for the much commented on failure of General Milier to force a landing at Iloilo on the island of Panay; Otis feit that he wanted all of the troops at Manilia, where was located the center of danger. Part of Miller's force therefore was returned to Manilia and that general was left with one regiment of regulars and a battailon of artillery, just sufficient' to take advantage of any defection in his front, but not enough to force his way ashore and hold his own. Then, rather as a formal authorization, for he did not need the instruction, Dewey was told to eo-operate fully with General Otis in any measures the latter might

Some of the American warships were quietly moved into positions where they perfectly commanded the insurgent trenehes and defences, and eould shell them with effect in case of an outbreak. This movement was effected more than 10 days ago; and the administration has not feit serious apprehension of General Otis' ability at least to hild his own."

President McKinley took the view that perhaps under a strict contruction of the terms of the protocol, which still holds good in the absence of the ratification of the treaty, he lacked authority to extend the field of occupation of the Americans.

The fact that the insurgents theniselves have been the first to break the truce probably releases the United States government from further obligations in this respect, so that General Otis was unquestionably warranted, in the opinion of the administration officials, in extending his lines as Dewey reports he has done.

The situation is regarded here as rather anomaious from a dipiomatic

hostile operations continue outside of the limits of Manilla as laid down in the protocol, it will amount to a resumpton of the war with Spain, 9t least technically.

AN INDEFINITE STATEMENT. Officials noted one little flaw in Dewey's dispatch, in that he spoke of the American army and navy as "generally successful," conveying just the least intimation that at some points the results were not as satisfactory as at others. It is inferred here that this might mean the development of weakness at some of the more exposed points on the American lines.

The forces at Manifia, as shown by the records of the adjutant general's office Dec. 10, the date of the last report, were 21,649 troops, and of these there were present for duty 19,516 men. This command is composed of the foliowing organizations:

Company A. United States engineer hattalion; companies C. E. G. I. K and L, Fourth United States cavairy; troop of Navada cavalry; companies G, H, K and L of the Third, and D and G of the Sixth United States artillery; companies A and D of the Cal-Mornia and A and B of the Utah artiliery, and the First Wyoming battery; the Third and Fourth United States infantry: the Fourteenth and headquarters and companies B, D, F, H. I. K. L and M of the Seventeent's United States infantry; the Eighteenth. Twentieth and Twenty-third United States infantry: the First Caiffornia, the First Colorado, the First idaho, the Fifty-first Iowa, the Twentieth Kansas, the Thirteenth Minnesota, the First Montana, the First Nebraska, the First North Dakota, the Second Oregon, the Tenth Pennsylvania, the First South Dakota, the First Tennessee, the First Washington and the First Wyoming regiments of volunteer infantry.

A portion of this force, the Eighteenth infantry and a battery of artifiery, are at lioito, where General Milier was sent a month or more ago. Approximately 6,000 men are on their way to join General Otis, in four separate expeditions, though none are expected to reach Manilia for three weeks or a month. They are as follows:

The Fourth and four companies of the Seventeenth infantry, 1,728 men, under General Lawton, which sailed from Gibraltar last Friday; the Twentieth infantry, comprising 37 officers and 1,268 men, under General Wheaton, which left San Francisco Jan. 27, the Twenty-second infantry, in command of Colonel Egbert, which left San Francisco early in the month, and 2,000 men and officers of the Third and Seventeenth United States regiments of infantry which left New York Friday on the Sherman.

There is a hig transport, the Sheridan, now making ready in New York to earry the Tweifth infantry and a battalion of the Seventeenth infantry, 1,820 men in ali, and she wili start not later thun the 14th instant. That is ail that can be supplied to General Otis in the way of reinforcements, according to General Corbin, if the soidiers are to be of service in this campaign.

FORCE OF ENEMY UNKNOWN. No one here knows the real strength of the insurgents opposed to General Otis. The accounts of their numbers are conflicting and none of them comes from reliable sources. Still, the hest beilef of the authorities at the war dopartment is that they number about 30,000 men, hut they are not eomparabie to the American forces in personnel, discipline or quality of arms.

It is known that they have some Mausers, some Remingtons and a variety of other fire arms, and it is suspected they have been quite pientifully supplied with ammunition from outside sources.

Taken as a whoie, this armament is decidedly inferior to that of the American troops. Then, with inexperienced officers, in many cases even the colonels of regiments being not more than 21 years of age, and their lack of knowledge of tactics, they are at s great disadvantage. Their strong point ia their knowledge of the country and a certain fanatical bravery in onslaught that would be formidable to a volunteer force not well trained to stand fire. Like the Cubans, theay rely too much on a sword-like weapon corresponding to the machete, a weapon of little valu against long-range rifles.

Besides his soldiers General Otis has at his back in Manilla bay, commanding the city, a veritable Gibraitar in Dewey's fleet. With the vessels he has now and those about to join him Dewey will have 21 ships of various types. The fleet can not operatae against

troops in the interior, but undouhtedly Dewey will immediately draw a tight cordon of blockading vessels around the island of Luzon and make a special effort absolutely to cut off the insurgents from the supplies' and ammunition which they must have to carry on the war.

LEADERS ON BOTH SIDES.

Senator Gorman, the Head of the Oppositton to the faris Agreement, Thinks Conflict Will Make No Change in Votes.

Washington, Feb. 6.-Senator Gorman of Maryland, who is the leader and organizer of the oposition to the treaty in the senate, said as to the effect the conflict at Maniila would have upon the treaty: "It will have no effect whatever. What has occurred is the result of what has been predicted by the opposents of the treaty all the time. The opponents of the treaty said that trouble would come if we handlied those people without gioves and undertook to force ourseives upon them without their consent. This battle can have no effect upon the opponents ot the treaty in any way."

Senator Lodge of Massachusetts, a member of the committee on foreign relations, said: "I am in favor of standing by Dewey and Otis as against Aguinaido. Our status in the Philippines is that under the protocoi we are in possession of the city, bay and harbor of Manilia. We are acting under a truce with Spain. Those people who have attacked the United States forces are, in the eye of international law, still subjects of Spain, and would be until the treatyis ratified. They have violated the truce and are our public enemies and should be treated as such."

Senator Pettigrew: "We could have had no possible difficulty with the peopie of the Philippines if we had given to them the honest assurance that we did not propose to overthrow their newly established liberies. The course of the administration, on the contrary. has been one of 'criminai aggression' and apparent bad faith. There can be no question in the mind of any one who has read the instructions to the peace commissioners that the president's purpose aiways was to make a permanent claim to the island of Luzon. To turn upon aily in this way is certainly the greatest international crime of the century. I helieve the treaty should be amended at once so as to give assurance to those people of our good faith and thus make them our friends, even under these trying circumstances. We should even now withdraw our military forces and allow them to cstablishe a military government of their own." Senator Pettigrew said that in his opinion the fighting would not delay a vote on the treaty.

Either a Tra tor or a Spy. Washington, Feb. 6 .- One of the first steps of the administration upon hearing of the outbreak at Manilia, was to give atention to the presence at Washington of Agonciiio, the accredited representative here of the Philippine insurgents. They would not say whether or not any steps had been taken looking to his expuision from the United States or to his arrest, but his status, it can be stated, has already been the subject of eareful study. The officiais have been loth to disturb him, first because they did not eare to martyrize him unnecessarily; and, secondly, because they dld not care to expose themseives to the criticism that they were interfering improperly with the supply of information and arguments respecting 'the Philippine question while the treaty was pending before the senate. 'It'is possible, however, that their patience is now exhausted, believing as they'd. that he has in some fashion been conneeted with this outbreak and that they may be aroused to the point of action. It was said at the state department, piainly, that Agoneilio was either a traitor or a spy. If the Philippines are regarded as American territory, then he is the representative and active agent of an insurrection against the United States, and as such is a traitor. If the Philippines are still in nominal Spanish possession. then, as a state of war still technically exists, he can be regarded only as

Agninaldn's Hig Claim. Washington, Feb. 6.-Aguinaldo has

"ONLY extraordinary ignorance of history could suggest a parallel between Jefferson's purchase of Louisiana and McKinley's military selzure of the Philippines," asserts the New York World. "The one was a peaceful negotiation; the other has been characterized by the President himself as 'criminal aggression.' The one was a necessary measure of national defense; the other is the beginning of a totally new policy of 'expansion,' not merely beyond the bounds of the continent, but into another hemisphere. The one settled questions of the most vital character; the other opens questions that centuries may not settle."

GOV. BRADLEY

Bitterly Scores His Party's Policy of Imperialism.

No Warrant in Our Constitution For a Miltary Government-A Nation's Greed Results in Ruin.

Governor Bradley, although a staunch Republican, is hitterly opposed to the policy of imperialism now being advocated so strongly by his party. He was one of the first prominent men to oppose the expansion doctrine, and in an interview with the Cincinnatl Enquirer Friday reiterated his reasons for his opposition. Among other things he said:

"The disposition; in many quarters, among public men and the press, to vilify and abuse those who do not blindly accept the imperialistic doctrine, is by no means a hopeful sign. It le un-American, because an attempt to prevent free speech, and is in full consonance with the doctrine of imperialism which brooks no opposition. It is said that opposition to the treaty embarrasses, complicates and increases dangers abroad, and that in order to escape such consequences we should not allow ourselves to discuss or provide against dangers at home. It is also contended that a treaty having been made, it would be cowardly to fail to carry it to a legitlmate conclusion. The people of the United States do not belong soul and body to Commissioners appointed to form a treaty. The Constitution, in saying that no treaty shall become effectual until ratified by a two-thirds vote of the Senato declares in so many words that the Commissioners are subservient to the will of the people as reflected by their representatives, and the whole object of the law is to afford full and falr debate. Until fatified the treaty is a mere executory agreement.

"If it he cowardly to oppose a treaty, should become effective without Senatorial sanction, and the people he placed power to protest against or even object to Nation are its enemies; nor do I deny to them that patriotism of which all Americans are possessed; but I believe some are blinded by the glamonr of what they believe to he immense empire and manifest destiny, others are borne along upon what is thought to be the resistless wave of public sentiment, and yet others because they are unable to refuse obedience to the will of those who stand behind tho movement.

"In the first place, the acquisition of foreign territory is in direct opposition to the Monroe doctrine by which our actions afternoon, and lingered until Saturday have been governed since its enunciation. The moment we establish a precedent that we may enter the Eastern Hemisphere and acquire territory, that moment we are estopped from denying a similar right to foreign nations in this hemlsphere. An extension of their power here would endanger our institutions, an ex-THE twenty-sixth series is still open in tension of our power there, they may as -\$1.30 per share this week. This is now the wealthiest Nation on the globe, the workshop and granary of the world. American ingenuity, intelligence and progress have forged ahead of all other nations. Surely such a position should content us.

"Besides, the United States has a large quantity of territory comparatively va cant, open and suitable for settlement. By reclaiming arid regions there would be added to this many thousands of acres. We have ample territory for many years to come, but even if other LEXINGTON Gazette: "The newspapers lands are necessary we should acquire by

settlement by the citizens of this country. The different races of people that Inhabit them render even moro difficult any solution of citlzenship.

"For more than a quarter of a century this country has signally failed to settle the race question at home. And if we can not accomplish this in our own land how can we hope to accomplish it abroad with a class of people none of wbom can country. If we cannot solve the question at home, how can we expect to solve it thousands of miles away? If we can not guarantee constitutional rights to a portion of our own people, how can we guarantee such rights there? If, indeed, it be true, as contended, that the Constitution can not be enforced here, because of public sentiment, what will be the result there?

"There is no warrant in the Constitution or spirit of Republican institutions which will authorize a military government in those islands—a government which is marked not only by force, but which taxes without representation.

"The cry of "manifest destiny," the glittering prospect of grandeur and power, are no new things in history. The same spirit moved Caesar, the same siren voices lured Alexander and Napoleon. The fate of the Roman and Macedonian Empires, and last, though by no means least, of Spain, should be sufficient to dispel this dream of imperialism. They have gone down in ruin. Such is the irony of fa'e. Such is the punishment which an all-wise power inflicts on those who by sword and conquest extend dominion over others.

"As surely as our possessions are extended to the Eastern Hemisphere, just so surely must we have an alliance with England. Otherwise we can not hope to such an extent that we are forced to sell our maintain them. That she is anxious for fine line of this alllance there can be no question, for it is to her Interest. There is not on the face of the globe another nation so thoroughly selfish and calculating. Her statesmen appreciate the fact that the day is not far distant whon she will need then there should be no such rule, but it help, and hence they seize upon the present opportunity."

A Trank Full of It Figures in a Sait by Mr. C. C. Hopper Against a Danville Merchant.

[Enquirer.]

Constable Williams, of 'Squire Winkler's Court, Saturday morning attached property belonging to C. M. McDonnell,

Suit was brought by C. C. Hopper, at Danville, Ky., to recover \$457 clalmed to be due on two promissory notes. It appears that the defendant bought out a store in Danville from the plaintiff and that a few weeks ago McDonnell, being about \$1,200 ln debt to Hopper, turned over the store to him.

Hopper alleges that when an inventory was taken considerable jewelry was missing. Constable Williams secured a trunk containing about \$400 of jewelry, supposed to be part of the missing stuff.

The Cincinnati Leaf Tobacco Warehouse Com pany, ln its circular for the week, has the follow

The continued cold weather of the past week had the effect of curtailing receipts and sales. The offerings of new stock were lighter than the previous week, and while the quality of the geueral average was afarmingly poor, there was some excellent tobacco offered, and the highest pride of the season reached, namely, two hogs heads at the Morris Warehouse sold for \$18,25

The main part of the buying was, of course, by the large manufacturers, but there was a great deal of active bidding by the smaller ones, and this, together with some speculative demand, made planty of competition. Prices can hardly be quoted advanced, except on the very finest of new leaf. Mediums and trashes are without chauge. Old stock is seiling high.
